- Lubrificazione a vita.
- *Unique reduction ratio 1/3.*
- *Cylindrical helical and spur gears, case-hardened and ground.*
- *Lifetime lubrication.*

OK!

La precoppia non è un riduttore, è un'espansione a monte del riduttore: in quanto tale non è utilizzabile da sola.

NO!

The pre-stage gear is not a reduction gear, but an expansion assembled onto the reduction gear therefore it cannot be used alone.
